-
1. We have paid each teacher for 25 hours that they worked over the summer to continue developing common pacing guides and common assessments. We are making good headway but with teachers that teach in multiple subject areas they are focusing on 1 area and still need time to finish in that area and then work in the other areas that they are teaching.
 2. We are paying for our Technology Support in our building out of Trust Land monies. This person is stationed in the computer lab and manages the lab and also all of the mobile devices in our building. They provide assistance to teachers and all students with the technology needs that they have. Trust Land's pays for 19 hours each week.
 3. We are paying for a Reading Strategies teacher who teaches 3 periods each day. Each class has no more than 8 students in it that have been identified as reading 2 or more grade levels below their actual grade level.
 4. We continue to upgrade and improve on the technology that teachers and students use in the classrooms. Sound, projectors, smart boards, document cameras, and specific software for classes.
 5. We maintain and purchase accessories for the 1:1 devices. Protective cases, chargers, cables to charge them with, apps, books, repairs, etc...

Our needs far outweigh our funding but in case there is any extra the majority of the goals that we have set are perpetual in nature meaning we will continue to work on these goals for multiple years. If there is more money than we have planned for we will use it to move the goals that we have set forward even more than we have planned.
